//DokuWiki is a simple to use and highly versatile Open Source wiki software
that doesn't require a database. It is loved by users for its clean and
readable syntax. The ease of maintenance, backup and integration makes it an
administrator's favorite. Built in access controls and authentication
connectors make DokuWiki especially useful in the enterprise context and the
large number of plugins contributed by its vibrant community allow for a
broad range of use cases beyond a traditional wiki.//
